ABOUT ME

UI/UX Designer with 1.7+ years of experience in graphic design and a strong foundation in user-centered design, visual design and frontend development. Skilled in Figma, wireframing, prototyping and translating user needs into clear digital experiences.

SKILLS

- Design Tools:** Figma, FigJam, Canva
- UI/UX:** Wireframing, Prototyping, User Flows, Usability, Interaction Design
- Dvelopment:** HTML, CSS, Python, SQL, Flask, Mongoodb, Git
- AI Tools:** Claude, ChatGpt, Cursor AI, Figma Make

PROJECTS

- 1. StyleMate – AI Virtual Try-On Platform (React, Flask, MongoDB, Gemini API)**
Designed and developed an end-to-end AI-powered fashion stylist platform with digital wardrobe management, outfit recommendations and virtual try-on. Integrated Gemini API for AI-driven recommendations. Built scalable backend with REST APIs to support product performance.
- 2. LocalGems – Local Marketplace(Flutter, Firebase)**
Designed and developed a two-sided marketplace connecting customers with nearby stores and service providers. Focused on map-based discovery, search, chat and customer journeys, alongside seller inventory and order management experiences.
- 3. AI-Powered Ticket Booking Experience (UI/UX Case Study – Figma)**
Redesigned a ticket booking platform by integrating AI-based seat recommendations to simplify user decisions and reduce repetitive browsing.Created user flows, wireframes, and prototypes(Low fidelity and high fidelity mockups).

EXPERIENCE

- Graphic Designer & Social Media Manager**
China To India Shipping | Jan 2025 – Present
Created digital creatives, social media campaigns and promotional materials while maintaining consistent visual branding. Analyzed audience engagement and content performance to inform creative and content decisions.Collaborated on visual communication across digital platforms, adapting designs for different audiences and formats.
- C# Windows Application Internship**
Anup Engineering & Aluminium Industries | Jul 2025 – Aug 2025
Assisted in a Windows application focused on PDF extraction, OCR processing, and document data handling to support automation requirements.
